

Linda Lakes

Gate Instructions

Upon move-in you will receive **TWO gate remotes** to open both entrance & pool gates. You will also receive **TWO pedestrian gate keys**, and **TWO pool restroom keys**.

You may also access the front gate by using the entry keypad located just outside the gate. You will enter the **pound (#) sign and a 4-digit code** of your preference. For safety reasons, we ask that you do not give out your code.

Guests:

There is a keypad outside the gate entrance and resident names appear in alphabetical order.

Guests may scroll through to find your name and press the call button. This will connect to you via telephone. **Please contact The CAM Team to setup your phone number.**

To open the gate, **press 9 on your phone** and the gate will automatically open.

If you want your name removed from the keypad directory, please alert The CAM Team.

If you have other questions, please contact The CAM Team at (904) 278-2338 or by email at LindaLakes@theCamTeam.com.
